Y1 Animals Including Humans - Who Am I?

Exciting Books

I should already know:

- The names of some parts of my body.
- Know that we have bones and a skeleton.

Greater Depth Challenge

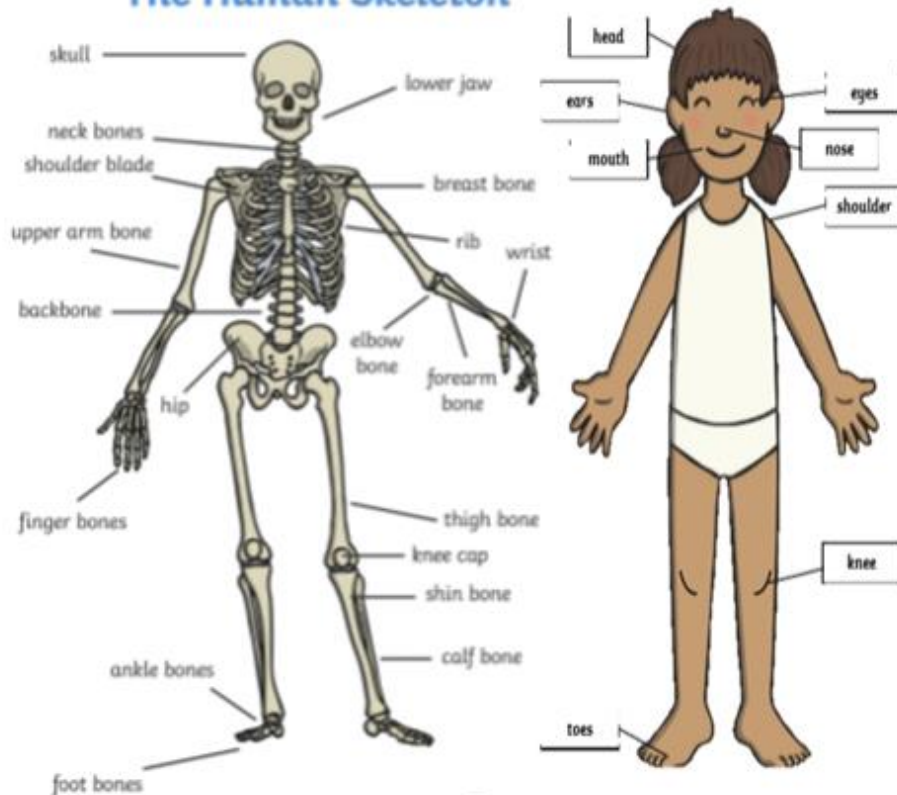

What do the main parts of my body do?

This will help me in the future:

Identify, name and draw parts of the body.
Know the function of different body parts.

The Human Skeleton

Key Vocabulary	Definition
Human	A human being or a person. Me or You.
Oxygen	A gas, the air that we breathe.
Skeleton	The inside structure of our bodies made of bones.
Muscles	Parts of our body that allow us to move. There are over 650 muscles in our bodies.
Joints	Where bones meet and move e.g. knees or ankles.
Bones	Hold up the body and support it. Protect parts of our bodies like the lungs. There are 206 bones in our bodies.
Blood	Red liquid that moves oxygen around our bodies.
Heart	The muscle in our chest that beats and pumps blood around our bodies.
Lungs	Inside our ribcage where oxygen is breathed in.
